

ORIC expanding to Penticton

PENTICTON - The non-profit organization **Okanagan Research and Innovation Centre (ORIC)** is planning its expansion - this time in Penticton, to create a business incubator that will draw on the intellectual horsepower of the South Okanagan and link with **Okanagan College** to help nurture new technology businesses.

When the \$28-million Centre of Excellence opens on the Penticton campus in 2011, ORIC will have incubator space in the building, notes ORIC President **Peter Haubrich**.
